H.O.D 's Message

"I am glad to know that the department will have its newsletter for the session 2020-21. It is sad that the Pandemic has changed all our equations with life in general and academic life in particular. However, all of us together have come out of it successfully. You all are great and our department is as good as you all are. Successes and failures come and go but your dedication and hard work will always be with you. It is important to become a person having compassion and empathy in the long run. All the best for a bright and successful future."

Sadhana Satapathy

2020 saw a new beginning. During the Pandemic, online classes became the mode of teaching for our department from 16th July, 2020 onwards. Though the process was very new to our faculty members as well as the students, the teachers did their best to transfer knowledge in every way possible. From creating presentations to using digital pens, teachers simplified the process of learning from home. They also made use of google classrooms as the medium to share necessary materials such as PPTs, PDFs and assignments etc. with the students. In this way, the teachers as well as the students adapted to the online class framework.
